## Two More Reds Under Fire in Soviet Congress

Mikhail Pervukhin, Maxim Saburov Hit By Spiridonov Talk

MOSCOW (AP) — The Soviet Communist party Congress went into its fourth day today with two more Kremlin veterans added to the anti-party group.

Mikhail Pervukhin, former ambassador to Communist East Germany, and Maxim Saburov, former high-ranking economic planner, were the latest under fire.

An account of Leningrad party chief Ivan Spiridonov's speech to the congress Thursday, published in the party newspaper Pravda, linked Pervukhin and Saburov with the five men already removed from high party and government posts for opposing Premier Khrushchev's policies.

Spiridonov kicked off a campaign Thursday to bring the anti-party group before the Congress to answer for their actions. According to the published text of his statement, he said that Pervukhin and Saburov also should be called before the Congress to explain their actions.

Those condemned previously were former Premiers Georgi Malenkov and Nikolai Bulganin, former Foreign Ministers N. M. Molotov and Dimitri Shepilov, and former Deputy Premier Lazar Kaganovich. They have been transferred to minor posts at various points in the Soviet Union and, so far as is known, have not been expelled from the party.

Pervukhin is a candidate member of the party Presidium, and Saburov is a member of the party Central Committee. Both were at the opening session of the Congress Tuesday and presumably were present Thursday for Spiridonov's attack.

## Khrushchev's Russia Talks 'Aiding' West

By WILLIAM L. RYAN  
AP Foreign News Analyst

Nikita S. Khrushchev is doing a job of Western propaganda that the west seems unable to do for itself.

Khrushchev's statements to the 21st Soviet Communist Congress sow fear among leaders of countries he has been hoping to impress. His protests about the purity of Soviet intentions toward the sovereignties of others will get a skeptical reception.

Khrushchev solemnly told the Soviet Communist Congress that the U.S.S.R. "never interferes and has no intention of interfering in the domestic affairs of other countries." Only a few sentences beyond that, he openly scolded Gamal Abdel Nasser of the United Arab Republic. Nasser was "wrong" to take action against the Communists in Syria and Egypt.

Such Khrushchev protestations of innocence must have sounded strange, too, to the Soviet Union's Finnish neighbors. Only a short time ago Moscow seriously menaced Finland's economy by halting Soviet-Finnish trade because Finland had installed a conservative government. Relations didn't improve until Finland got a government that promised to get along with Moscow.

Soviet and Chinese Communists are causing concern in Asia, particularly in Indonesia where President Sukarno seems to be backing away cautiously from the bear's embrace.

Whenever the Communists have an opportunity to throw charges of interference and imperialism at the United States, there is a great propaganda hue and cry. Moscow makes the most of such situations. But when the shoe is on the other foot, Western propaganda seems to take little advantage of it.

**HAPPY WITH SENTENCE** — Carlton Vance Mings, 38, of Swenson, Texas, wore a smile and his wife, Wilma, shed a tear of relief as they left the courtroom on Treasure Island in San Francisco yesterday. Mings had just heard a Navy court martial board sentence him to six months at hard labor and ordered him dishonorably discharged from the service for deserting his ship, the cruiser Chester, 13½ years ago. The sentence could have ranged from nothing to life in prison. Mings, a farm laborer, has married and become the father of three children since leaving his combat bound ship at Mare Island one month before D-Day in World War II.

## Integrated Schools To Open in Virginia

RICHMOND, Va. (AP) — Officials make preparations today for Monday's opening in Norfolk and Arlington of Virginia's first integrated public schools, Charlottesville got a delay.

A group of segregationists sought a test of legislative power with the state administration.

A rapid-fire series of events Thursday brought these developments on a broad front stretching from Baltimore, Md., to Norfolk: 1. Judge Simon E. Sobeloff of the U.S. 4th Circuit Court of Appeals refused to stay a lower court order directing the admission of four Negro pupils Monday to Stratford Junior High School in Arlington. He did, however, grant Charlottesville a postponement of its desegregation order until next fall.

2. School officials in Norfolk announced plans to reopen six white secondary schools, closed since September, on an integrated basis Monday and called on the public to "show sincere understanding and cooperation to assure a smooth, orderly opening. . . ." 3. Gov. J. Lindsay Almond Jr. rejected the appeals of a segregationist bloc in the General Assembly for approval of emergency legislation that would delay the integration plans in Norfolk and Arlington.

A showdown between the no-integration forces and the Almond administration appeared imminent in the Legislature. At the same time, Alexandria school officials were called on to defend in federal court their rejection of 14 Negro students.

**Another Man Held for Area Burglaries**  
LISBON — Robert G. Moore, 20, of Brown, W. Va., will have a hearing today before County Judge James L. MacDonald on burglary charges following his arrest at the County Jail by Sheriff Russell J. VanFossan Thursday.

Moore, who had been visiting William Earl Price, 23, of East Liverpool RD 1, a prisoner in the jail, told the sheriff he had come in to give himself up.

He will be charged with entering the Potters Lumber Co. near Calcutta Feb. 27, 1958, the sheriff said. The sheriff said Moore admitted four other county burglaries in which he and Price allegedly were involved. Only one charge is being placed against him at present, the sheriff said.

Price has confessed to committing three burglaries in East Liverpool and four others in the county.

Arrested by sheriff's deputies Tuesday, Price was turned over to East Liverpool authorities. Under questioning he confessed the crimes there.

After his return to the county jail he admitted breaking and entering the following places: Potters Lumber Co., Feb. 27; Skyview and Super Drive-In Theater, April 21; and Super 30 Drive-In Theater, May 14. All occurred in 1958.

Moore admitted being with Price when the latter burglaries were committed. East Liverpool police will question Moore today in regard to the burglaries there.

A third man is wanted for questioning in the breakings and enterings. However, he has been arrested in Pennsylvania on another charge and it is not known whether he will be released to local authorities.

## Senate to View U.S. Position In Space Race

Lyndon B. Johnson To Question Chiefs Of Military Groups

WASHINGTON (AP) — Senators aim their defense inquiry today at civilian and military space experts.

Sen. Lyndon B. Johnson (D-Tex.) asked leaders of both the new civilian and military aeronautical and space programs for public testimony on how this country compares with the Soviet Union.

Johnson heads both the Senate Space Committee and the Defense Preparedness subcommittee. The testimony on the state of U.S. defenses is being heard by members of both bodies.

Asked to outline space plans today by Dr. T. Keith Glennan, administrator of the National Aeronautics and Space Administration which handles the civilian or non-military phases of such projects.

Pentagon space and missile leaders expected for questioning include Dr. Herbert York, director of research and engineering; William M. Holaday, guided missile chief; Roy Johnson, director of the Advanced Research Projects Agency; and Dr. Wernher von Braun, German-born director of A.G. Case.

Maj. Gen. Bernard A. Schriever, the Air Force's top missile man, testified Thursday. He urged a greater buildup in long-range rockets to counter a "very dangerous ballistic missile threat" from the Soviet Union.

Secretary of Defense McElroy said in his opening testimony the United States does not plan to match the Russians on intercontinental ballistic missile production in the next two years.

But he said later that the first operational base for Atlas ICBMs will be in use next June at California's Vandenberg Air Force Base.

The counsel for the Senate group, Edwin Weiss, interpreted McElroy's testimony as meaning the first operational squadron of ICBMs will be ready in July of this year. McElroy did not challenge this statement, but a high Air Force official later said it didn't quite reflect the situation.

The official told a newsman, "we will have some operational capability then" but that a full squadron of about 10 missiles probably will not be ready for several months after that.

## Mayor's Committee Will Meet on Monday

The Mayor's Industrial and Economic Development Committee will hold its second meeting Monday night at 7 in the council chambers at City Hall.

The committee met originally on Jan. 19 at the request of Mayor Harold Smith to advance views for community betterment.

## No One Hurt In Train Mishap

## 35 Freight Cars Leave Tracks Near Salineville

Thirty-five cars of an 89-car Pennsylvania Railroad freight train eastbound from Chicago to Conway, Pa., were derailed east of East Liverpool near Salineville at 9:50 p.m. Thursday.

No one was injured but a tank car of non-toxic petroleum sludge spilled, and the odor drove four members of the Harry Bryson family from their home, the State Highway Patrol at Lisbon said.

Police Chief Cleo Melott of Salineville said the Brysons were nauseated, and after treatment by a doctor, went to the home of relatives to spend the rest of the night.

The mishap blocked two tracks on the PRR line but some 200 workmen dispatched from Cleveland and Conway via "wreck trains" were expected to have one track cleared by Saturday morning and the other by Monday.

The derailed cars were at the head of the train. One of four livestock cars broke open and a shipment of lambs ran loose. Most of the animals were rounded up and placed in trucks bound for Pittsburgh.

Most of the other cars contained grain.

The cause of the accident has not been determined. E. C. Arney of Cleveland, public relations manager for the railroad's lake region, said. No estimate has been made of the damages, he said.

LISBON — Columbiana County commissioners have signed a contract to secure state surplus food for county needy and will begin distribution as soon as facilities can be set up. R. Max Gard, president of the commissioners, reports.

Robert Bycroft, county welfare director, will be in charge of the program. He will make arrangements for warehouses, deep freeze facilities and trucks necessary to transport the food.

He will also draft the paper procedure for procuring the food. He plans to contact welfare and relief agencies in the county's four principal cities to determine if they will participate in the program.

The commissioners decided to avail the county of the surplus food

## Mexicans Asked To Give Support To President

Fishermen Incident Broke All Relations Between Countries

MEXICO CITY (AP)—Hostility toward neighboring Guatemala mounted in Mexico today, fired by a report that Guatemalan demonstrators had destroyed a border bridge and Guatemalan planes had flown over a Mexican city in the southern area.

Guatemalan police in turn charged that 20 armed Mexicans had crossed the border Thursday and plundered the village of Santa Ana.

Mexico's government Party of Revolutionary Institutions called on half a million persons to assemble in Mexico City Sunday before the Presidential Palace to demonstrate support for President Adolfo Lopez Mateos.

Lopez Mateos broke diplomatic relations with Guatemala last week after President Miguel Ydigoras Fuentes had rejected a Mexican protest against the strafing of Mexican fishing boats. Three fishermen were killed, Guatemala claimed they were trespassing.

Several thousand residents held a meeting to back Lopez Mateos Thursday night in Acapulco, a major fishing port as well as resort on the west coast.

Reports from Tapachula, largest Mexican city on the 500-mile border and military headquarters for the district, said a spontaneous demonstration on the Guatemalan side of the Suchiate

## 2 Test Pilots Candidates for U.S. Spacemen

FAIRBANKS, Alaska (AP)—Bewildered but proud, two veteran Air Force test pilots were trying to digest today the news that they might soon swap their supersonic jet planes for a spaceship.

Capt. Tom Bogan, 35, and Capt. William Bradbury, 33, were informed Thursday that they had been chosen with 108 other men as candidates for man's first venture to outer space.

Their names were the first to be released after the spacemen program was announced Tuesday by Keith Glennan, U.S. space chief.

"It was pretty hard to believe," Bogan said. Bradbury nodded in agreement.

## County Home Job Appointment Delayed

LISBON — Columbiana County commissioners took no action at a meeting Thursday in the courtroom to appoint a superintendent of the Columbiana County infirmary.

The commissioners reviewed the eligibility list submitted by the Ohio Civil Service Commission but delayed naming a successor to Ray T. Adam, who resigned. Russell V. Phillips of Salem has been serving as acting superintendent.

In the recent state civil service examination, Willard Wayne Thompson of East Liverpool placed first, Russell George Sinsley of Leetonia RD 2, second, and Mr. Phillips was third, according to the eligibility list.

In an examination for county dog warden, Jack Clunk of Columbiana RD 2 placed highest, the commissioners were notified. No action was taken to name a dog warden because the commissioners said they aren't sure there is a vacancy.

## Collection Is One of Ohio's 'Most Distinctive'

## Zanesville Art Institute Radiates Pride

By PHIL GUNBY  
Ohio AP Staff Writer

ZANESVILLE, Ohio V — One afternoon shortly after he became director, Dr. Charles Dietz went out and painted the front door of the Art Institute of Zanesville bright red.

"I thought maybe it would start people talking," he says, "and draw attention to the place."

"The place" is a massive, majestic residence built 70 years ago. Surrounded by hedges, shrub and trees, it stands on a corner at the top of a sloping street in what is still generally a well-to-do residential area.

Presented to the city by Mr. and Mrs. Edward M. Ayers in 1936, it has become not only the cultural center they intended, but a source of civic pride as well.

Not every citizen has been in

it, but almost everyone knows where it is and enthusiastically commends it to the out-of-town visitor.

This pleases Dietz, a hometown boy, but doesn't satisfy him. "I don't want the institute to be a precious little picture gallery," he declared. "It should be something useful. Art is not something precious to be put away and guarded; it's a thing to be used and enjoyed by everyone."

He's pleased, for example that classes in painting, sketching, sculpture, ceramics and photography attract many to the institute. But if the individual comes because it's the fashionable thing to do, and not because of an awakened interest in these creative outlets, Dietz feels the whole purpose is lost.

It's hard to tell whether he is

more thrilled over the gift of a valuable painting to the institute or the fact that a little old lady has overcome self-consciousness and turned into an avid painter.

It's easy to sense his excitement and satisfaction when he talks about both.

Dietz has tried to reach all age and interest groups in his work at the institute. More than 2,000 public and parochial school pupils visit the institute annually for tours that take up to two hours. Dietz explains the institute's history, relates the background of paintings and other exhibits, outlines the institute's activities, and answers hundred of question.

"Their questions are very intelligent," he adds.

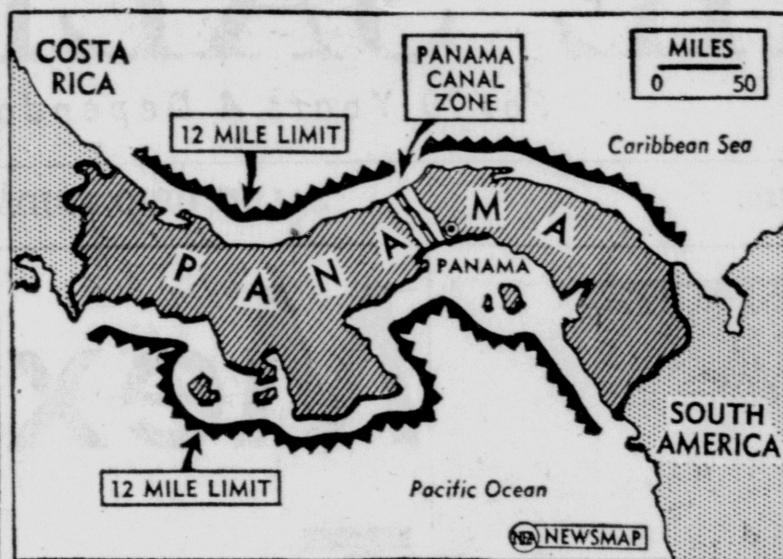

A special feature is the institute's collection of children's art, started about four years ago. In-

cluded are water colors, pastels and charcoal sketches, as well as jewelry, ceramic and basketry works created in the children's art classes.

Prof. Robert Gattrell of Ohio State University's fine arts department calls the collection "one of the most distinctive in Ohio."

Dietz also encourages couples to begin home art collections by renting of buying works from the institute.

In addition to the displays borrowed from other institutes and exhibitions of the work of those who use the institute, there are permanent collections which include works of Rubens, Van Dyck and other masters; tapestries; sculpture and ceramics; historic glassware from the regatta, and even a re-creation, using the original Norwegian spruce, of

**SQUEEZE PLAY IN PANAMA?**—A recently enacted law by Panama has given rise to fears of a Berlin-type blockade of the Panama Canal. The law extends the republic's territorial limits 12 miles to sea on either side of the isthmus. Should it be enforced, Panama technically could control all shipping approaching or leaving the canal at both ends. The U.S. has refused to recognize the law, holding that the treaty of 1903 guarantees free and unlimited access. Some quarters view Panama's action as a combination of rising nationalism and Communist pressure to internationalize the canal.

a room in a 17th Century English estate.

In addition to a liberal endowment set up by the late Edward Ayers, the institute is helped by The Friends of Art, composed of individuals and organizations and set up 15 years ago.

A bachelor, the 48-year-old Dietz puts in 13 to 15 hours a day and admits: "I still can't manage half the projects I want to do."

Is this a career job? Well, he answers, it might be interesting to do some teaching at the college level. "But right now, there are a great many interesting things to be done here. For instance, did I tell you . . ."

## Ohio Education Unit To Revoke Charters

COLUMBUS, Ohio (AP) — The State Board of Education plans to revoke the temporary charters of 20 high schools for failing to meet minimum standards.

The legal process of revocation will formally start Wednesday when State Supt. of Public Instruction E. E. Holt reports his recommendation to the board.

The affected schools may then apply for hearings on the revocation orders. After the hearings, a referee will make recommendations to the board.

If the decision is still unfavorable to the schools, they may appeal through the courts or they can remedy the offending conditions and apply for another charter.

But once the charter is revoked, their pupils must be reassigned to other schools.

Schools involved are: Jefferson (Adams County), Byrd (Brown), Moscow (Clermont), Jefferson (Clinton), Plainfield (Coshocton), Whetstone (Crawford), Marshall (Highland), Carbon Hill, Rockbridge, Gibsonville and South Bloomingville (all in Hocking County), North Fairfield (Huron), Amth (Knox), Quincy (Logan), Martel (Marion), Seneca-Richland (Guersey), Gambier (Knox), and Greene, Johnston and Mecca (all Trumbull).

Appreciation is expressed to a number of individuals, merchants and manufacturers who have contributed to the party fund, according to Herbert E. Covert, Veterans Hospital committee chairman.

Others wishing to contribute to the fund may make their checks payable to Post No. 8 Treasurer Le Roy V. Foust, 861 W. Wilson St., Salem.

## SENTENCES STRETCHED

COLUMBUS, Ohio (AP)—Ohio Penitentiary Warden Ralph W. Alvis says two inmates who made a futile attempt to escape Thursday will have to spend an additional two years in the prison. He said parole consideration for Donald Kimberling, 25, and Kenneth Macomber, 23, will be set back that length of time. The two, both of Marion, got only as far as their cell block roof before being captured.

## DiSalle Asks \$1½ Million For Ohio Aid

COLUMBUS, Ohio (AP) — The federal government has been asked for \$1½ million dollars to take care of immediate and pressing needs of flood-stricken cities and counties in Ohio.

Gov. Michael V. DiSalle sent the request Thursday.

He told civil defense officials that the federal disaster relief money will be doled out to local governments at a rate not to exceed 75 per cent of the minimum damage estimate for public property. The remaining 25 per cent will be reviewed later.

The federal funds, to be administered by the state, will take care of initial requirements for about 30 days, the governor said.

The governor's special Cabinet committee has figured Ohio's flood damage to public and private property at more than \$3 million dollars. Of the total, more than \$2 million was in damage to local government property.

The governor conferred Thursday with James R. Tichenor, administrator of the Bureau of Unemployment Compensation, and said these points came out of the discussion:

1. Ohio can get only about 6 to 7 million dollars in emergency unemployment loans from the federal government between now and April, when the program expires.

2. Last year, a period of recession, 275 million dollars was paid out in state jobless benefits, and compensation is still going out at the rate of 4 millions a week. The benefit fund balance stands at \$94 million and is not in jeopardy.

3. In the last six months, 61,000 Ohioans have exhausted both regular and emergency unemployment benefits, but there is no record of how many of them have since found work.

4. DiSalle would like to see a liberalization of jobless benefits include more emphasis on the number of dependents a worker has. An unemployed worker with five children now only gets credit for two when he draws benefits.

## County 4-H Dairy Club Plans Reorganization

The organization meeting of the Columbiana County 4-H Dairy Club will be held Wednesday at 8 p.m. at the Lisbon Grange hall, Don Myers, county extension agent in 4-H work, reports.

All interested 4-H members, advisors and parents are invited to attend these monthly sessions.

The dairy club also organizes special activities at the Columbiana County fair for the club members.

I. F. Skelton of Lisbon RD 4, is the advisor for the club.

## Beef Institute Set Here on Wednesday

"How to Keep Beef Cattle Healthy" will be discussed by Dr. John H. Liggett, Salem veterinarian, and "Production Testing" by William W. Wharton, animal science extension specialist, Ohio State University, the annual Columbiana-Mahoning Beef Institute Wednesday from 1 to 3:30 p.m. at the Memorial Building.

Albert Pugh, county extension agent in agriculture, said all persons interested in beef cattle are welcome to attend.

## Rowland Bishop to Be Manager Of Ohio's 1959 State Fair

COLUMBUS, Ohio (AP) Ohio's new state fair manager is a bespectacled 44-year-old Union County farmer who didn't even apply for the job.

Rowland Bishop, who operates a 260-acre farm near Milford Center, was appointed to the post Thursday by State Agriculture Director Robert H. Terhune. He had been named only 10 days ago as Terhune's administrative assistant.

The agriculture director said Bishop was not one of the 23 applicants for fair manager. But he said of Bishop: "This young man is sound. He has an idea of economy. We can't keep on losing money with the fair."

Bishop replaces D. Robert Jones, whose resignation becomes effective Feb. 14. Jones resigned in the midst of criticism that there had been too many high-priced entertainers at the fair and too little emphasis on agriculture.

Terhune said he had a chance to study Bishop's qualifications from a file compiled when the latter was being considered the agriculture director's job.

The new fair manager has two children—a boy and a girl, both students at Ohio State University. Bishop himself graduated in 1937 from the university's College of Agriculture where he majored in animal husbandry.

He and his wife, Mary, have been living in Columbus since his appointment as Terhune's assistant, but before that Bishop had lived all his life on the farm.

He produces seed and raises swine on his farm, which a neighbor will operate while he is away. He formerly raised Holstein cows but said he couldn't make any money with them.

Until last week, Bishop was treasurer of the Ohio Farm Bureau Federation and has also been vice president of the Northern Ohio Breeders Assn.

The outgoing fair manager made \$785 a month, but Bishop's salary will depend on Terhune's recommendation to the Ohio Civil Service Commission.

## Inside Labor

By Victor Rieser

Senate racket busters have been doing some sexy reading these past few days. They've been poring over Ed Murrow's radio script on the world's oldest profession. T his reading is for professional purposes only. The investigators have had enough spicy stuff on their hands, but counselor Bob Kennedy nevertheless called for the transcript of the Columbia Broadcasting System's charges that tens of thousands of prostitutes are being used to clinch big sales.

Behind Kennedy's call for that transcript is a headline making story which is just beginning to unravel — the story of labor's rolling counteroffensive after two years of being hit by its worst public relations since dues stamps were invented.

Bob Kennedy asked for that transcript in routine fashion as he does whenever his committee is urged by some respectable force or citizen to consider probing some crisis.

THIS TIME the call for an investigation of American business came from Al J. Haynes, chairman of the AFL-CIO Ethical Practices Committee and president of the missile-making, million-member International Assn. of Machinists.

Haynes, privately aware that the network's charges could not be proved because it will not reveal its sources, nonetheless dispatched the following message to Sen. McClellan's probers:

"I am shocked by Murrow's exposure disclosing the extent of the practice of using prostitutes and deducting the cost as a business expense. I believe that these shocking revelations properly come within the purview of the McClellan committee, which is charged with investigating improper activities of both labor and management."

"I trust the McClellan committee will investigate these unethical practices of business corporations with the same thoroughness that it has investigated labor's problems." The CBS blast at some big business came coincidentally at the very moment when labor decided on its biggest propaganda push. From now on anything that can be hung on the other side will be hung. Labor has not done much organizing in the climate of the past few years. At the same time the recession and automation has cost the AFL-CIO over half a million members.

Hundreds of thousands of others are jobs in such areas as Detroit. For labor to keep it organizers under wraps now would mean to slip backwards. So this is the month marked for the launching of the counterdrive for new members and higher wages. Most dramatic is the airwaves drive.

THE AFL-CIO and some of its unions are today the heaviest broadcasters in the land. The national headquarters, for example, now runs three major radio network shows — two of them daily — and several continuing TV broadcasts. The radio news shows pour out over some 500 stations.

Most unique of these are the United Steelworkers 15-minute broadcasts of songs and snatches of union propaganda by that fine Irish tenor Phil Regan.

These are scheduled for some 26 weeks — taking the broadcast right through the union negotiations with Big Steel and on to contract time, which many believe will be strike time.

Over at least another 100 TV stations, labor is supplying 15-minute movies. On 55 of these stations now, the AFL-CIO is competing directly with the National Assn. of Manufacturers, which has for years been supplying free prints on American industry. Labor has whipped up shows of its own called "Americans at Work" and is offering them gratis.

The other telecasts are paid by such unions as Walter Reuther's Auto Workers; Dave McDonald's

Steelworkers and Mike Quill's Transport Workers.

THIS REPORT is by no means all inclusive because there are literally thousands of other labor shows. But these are the big ones in the big push.

Paralleling them is the revived activity of the AFL-CIO's Organizing Dept. which recently called in all union chiefs for a refreshing breather.

At a two-day session the labor chiefs were told the climate is better for labor, the McClellan committee won't be around for much longer, and that the time has come to review the work of the organizing staffs.

Their season is here and they were told to put the show on the road.

### Veterans Guide

By Veterans Administration

Q—My wife and I are both veterans, eligible for GI loans. If we go in together on a real-estate loan for business purposes, would the amount of VA's guarantee be doubled?

A—Yes. On a real-estate loan for a business, the maximum VA guarantee for an individual veteran is \$4,000; so you and your wife could get an \$8,000 maximum guarantee. However, VA's guarantee may not exceed 50 percent of the total loan.

Q—I want to take a college course under the War Orphans Education Act, but cannot complete it by age 23 since I did not even become eligible until I was 21 when my father died. May schooling continue beyond age 23 in my case?

Yes. In cases where the veteran parent dies after a son or daughter is 18 but not yet 23, the eligible orphan has until five years after the death of the parent to complete school. In no case may schooling extend beyond the 31st birthday.

Q—I'm a Korea veteran, with an "RS"-type GI term insurance policy, which I am going to convert to one of VA's permanent plans, can I borrow against my permanent plan insurance as soon as it is issued?

A—No. You must hold your new permanent plan insurance one year before you have the right to borrow on it.

### Stuttering Child Needs Expert Help

An enormous amount of research has been conducted on the subject of stuttering and other speech defects.

Stutterers, it is said, constitute one of the largest groups of handicapped people in the world. One estimate is that there are 15 million persons who stutter. Approximately seven out of 1,000 persons in the United States are believed to suffer from this speech defect.

Exactly what causes stuttering and most other speech defects is not known. Some believe that children may be born predisposed to speech disorders. That is, the difficulty is not inherited but the nervous condition of some children speech disorders. That is, the difficulty is not inherited but the nervous constitution of some children makes them more susceptible to speech difficulties.

THE SEX OF the youngster and perhaps the race, may play some part. There are about four or five times as many boys who stutter as girls. It is said that more of the Caucasian than of the Negro race stutter.

The effect of forcing a left-handed child to use the right hand is probably not considered as important as it used to be. For example, Dr. Barbara, in a book on stuttering (Julian Press — \$5.00) says: "Stuttering is not to be considered as an isolated disorder of the speech mechanism but a more basic character disorganization."

The attack on speech defects, including stuttering, should come as soon as possible after such difficulty is first noticed.

IT IS IMPORTANT to get good advice, since the management of speech defects depends to a considerable degree on the understanding of the parents and what they do about it. Furthermore, there may be things in the home environment about which the parents may be unaware which can affect a child's speech.

Much has been learned about stuttering and other speech defects and their treatment during recent years. The results of proper treatment are often good. The stutterer or child with some other speech defect should get expert advice from one of the speech clinics spotted around the country.

INFORMATION on their location can be obtained from the National

Society for Crippled Children and Adults, 11 South La Salle Street, Chicago, Ill.

Also, I should like to recommend the booklet on stuttering prepared with the advice and guidance of the American Speech and Hearing Association and available through the National Society for Crippled Children and Adults (address above).

Another source of information besides the book by Dr. Barbara is a book by Gottlobent entitled "Understanding Stuttering."

It is important to realize that the youngster who stutters or has some other speech defect probably will not "outgrow" the difficulty by himself. Expert advice should be obtained as soon as possible in order to avoid handicapping a youngster unnecessarily.

## Study Your Checking Account

## It's Your Pocketbook

By FAYE HENLE

Take a guess. What do you believe is the world's biggest book-keeping job?

I'm told it is the handling of checks by our commercial banks. Each year 10 billion checks, totaling almost three trillion dollars.

About 90 per cent of all business transactions are handled by check, says the American Bankers Association, which also reports that 50 million of us—somewhat less than half the adult population—have checking accounts.

I'll wager more of us don't have such accounts because we fear the expense—an example far outweighed by advantages. Among those who do have checking accounts, I'll wager there are moments when we think the bank is charging us too much. The reason for this is because we don't really understand how banks operate checking accounts and because we don't know how to use them in the most economical fashion possible.

ACCORDING TO the ABA, it costs a typical bank \$1.25 a month to handle your checking account. Banks can meet this expense in two ways—either from the income earned on money left in the account, or from service charges.

Generally such charges are made only when the total cost of handling an account is greater than the amount the bank can earn from loaning out or investing the money that is on deposit.

There are two types of personal checking accounts—regular and special. The big difference between these, so far as service charges go, is that on special accounts fees generally are based on the amount of check activity regardless of the balance maintained—the amount of money you have in your account.

The ABA has discovered that about one third of all checking accounts have a monthly balance of less than \$100.

On special checking accounts there is generally a fee of 10 cents per check. Sometimes there is a charge of 3 to 8 cents per deposit plus a 25 to 75 cent monthly separate handling charge.

On regular checking accounts a fee is generally charged, based upon a bank's analysis of the customer's activity, which means the number of checks cashed, deposited or sent in for collection from other banks in relation to the amount of money in the account.

### YOU CAN SAVE on bank charges by:

Shopping around. Decide how much of a balance you can normally afford in your checking account and get several banks to estimate what they would charge you for either a special or a regular checking account.

Limit the number of checks you use each month. Make one check do the work of two or more.

If you have a regular account, balance, a special account usually works in your favor.

If you have regular account, it may pay you to keep up your balance.

A bank account, in good order, stands you in good stead when you seek credit, when you ask for a business reference or when you buy a home.

## COLUMBIANA

## Mayor Calvin To Seek Fourth Term In Office

COLUMBIANA — Village Democrats on Thursday announced a nearly-complete slate of candidates for the 1959 municipal elections. The ticket is headed by Mayor Erwood L. Calvin, who will be seeking his fourth term in office.

There also are six candidates for the six council seats to be filled, and three candidates for the four Board of Public Affairs.

A treasurer candidate rounds out the list, leaving open only the village clerk position. That post has been filled for 30 years by S. Richard Orr, a Democrat, who was unable to attend the party meeting Wednesday night because of the death of his mother.

Calvin first was elected mayor of Columbiana for the 1950-51 term. He was out for two terms, then returned for 56-57 and 1958-59, being unopposed for re-election the last time out.

Adin R. Kauffman, candidate for treasurer, is completing his first term in office and is seeking his first actual election to the post. He was appointed in late 1957 to fill a vacancy and automatically qualified for the 1958-59 term since the date was too late for certifying candidates for the general election.

Of the three Democrats presently serving on council, only one seeks re-election. He is G. A. (Gay) Zellers, out for his third consecutive term. Zellers is chairman of

the street committee and a member of the finance committee.

Four of the five remaining Democratic council candidates are newcomers to the political scene, but the fifth is a well-known name. O. S. (Ollie) Harrold previously served four terms on village council, and also put in 10 years on the board of education. The novice council candidates are Clinton K. Browning, Clinton W. Faulk, Russell Karcher and Ellis Ritchie.

Three more names new in the local political circles are those of the Democratic candidates for the board of public affairs. They are George K. Cleveland, Edward (Ed) Gustafson and William J. Hum.

Four of the slate are employed at National Rubber Machinery Co. — Zellers, Faulk, Cleveland and Hum. Browning is with the Enterprise Co., Ritchie with Republic Steel in Youngstown, Karcher with Keller's Hardware, and Gustafson with Ohio Bell Telephone Co.

CO-CHAIRMAN Ed Altomare and Ray McCormick for the March of Dimes campaign announced the Mother's March last week netted \$463.27 for the campaign. The canvass was conducted by the Newcomers Club, with Mrs. Harry Parker as project chairman.

A benefit cartoon show for the Dimes drive will be staged at 2 p.m. Saturday at the Manos Theatre. Admission will be 25 cents for children and 50 cents for adults with proceeds destined for the March of Dimes.

The Rev. H. J. Scheidemantle of the Presbyterian Church, the Rev. W. S. Longworth of the Methodist Church, the Rev. D. J. Voelml of Grace United Church and the Rev. J. Lloyd Nedrow of Zion Hill Church of the Brethren attended the Ohio Pastor's Convention this week at Columbus.

MISS CAMILLE ESENWEIN was hostess Wednesday to eight of her friends who spent the evening playing cards. Lunch was served by her mother, Mrs. Minnie Eesenwein.

M. H. Pursifull has been appointed deputy registrar of motor vehicles for the village of Columbiana. He will sell permits for license plates, transfers, drivers and chauffeur, at 253 S. Main St.

The board of advisors for the Rainbow Girls will meet with Mrs. Eleanor Schmidt on Monday, Feb. 2, 8 p.m.

Mr. and Mrs. Geo. Fisher of N. Middle St. are the parents of a daughter, Miriam Beth, born in the Salem City Hospital on Wednesday.

Pressure was brought to bear, too, on Warren County school authorities for the reopening of the white Warren County High School at Front Royal. It was closed in September along with the six Norfolk schools and two in Charlottesville by state anti-integration laws since ruled unconstitutional.

Seventeen Negro pupils are expected to enter the six Norfolk schools. Counsel for the pupils said all would report Monday to the schools to which they were assigned.

following a meeting Thursday with Robert McGonagle of Columbus, state supervisor of commodity surplus foods.

The cost to the county cannot be determined until the program is in operation. Bycroft said.

At present, rice, corn meal, flour, dried milk and butter are available.

The county will have to truck the surplus food from a warehouse in Youngstown to a warehouse in the county.

Bycroft said he would be unable to give the approximate date of the start of distribution until he determines which cities will participate in the program.

## 2 Pilots

(Continued from Page One)

The two pilots were interviewed by news director Ken Conner of radio station KFRB, who had learned of the men's selection from an undisclosed news source. Air Force officials confirmed it.

Bogan and Bradbury are on temporary duty at Eielson Air Force Base near here, from Wright Patterson AFB, Dayton, Ohio.

Bogan flies a F106 in sub-zero temperature tests. Bradbury speed tests a F101B.

Bogan of Goodland, Ind., and Bradbury, who hails from Houston, Tex., told Conner they have had no special training as yet for the space venture. But both have more than double the required 1,500 flying hours and are within the maximum height of 5 feet 11 inches.

The two pilots are married but their wives do not yet know of their husband's candidacy as spacemen. Bogan said he has been trying to reach his wife, who is visiting in London, Ont. Both women live at Dayton.

Will Bogan and Bradbury accept the chance to view the earth as a tiny globe?

"I would have to know more about the project," Bradbury said. He pointed out that the 12 finalists would have a chance to decline. Both said they don't know too much about the project.

Neither pilot had an idea of what training program might lie ahead.

Glennan's announcement Tuesday said the 12 final space candidates are expected to have been selected by late March.

The accident was the second derailment of a Pennsylvania Railroad freight train to occur in this area in two weeks.

Thirty-one cars of a 72-car train left the tracks east of Kensington Jan. 16. Railroad spokesmen estimated damages then at about \$250,000.

## Kentucky Wins 600th for Rupp

Wildcats Defeat Georgia by 108-55

By The Associated Press  
Long-time basketball powers Kentucky and St. Louis are riding higher than ever today—the Wildcats after nailing coach Adolph Rupp's 600th victory and the Billikens after snapping St. John's win streak at nine and ballooning their own to 10 in a row.

Kentucky put Rupp in the charmed 600 circle in his 29th coaching year with a 108-55 victory over Georgia at Lexington. St. Louis, led by 6-8 Bob Ferry and 6-7 George Burkel whipped St. John's 72-63 in the game that was supposed to indicate whether the New York Redmen had made it all the way back to their national prominence of a decade ago.

Mississippi State, beaten only by unbeaten Auburn, made it 15-1 in a 53-22 squeaker over Memphis State, and Dartmouth won its seventh straight for an 11-4 ledger, 64-62 over Boston University in other features of the slim Thursday program.

St. John's, No. 7 nationally, took a 12-1 record and nine in a row to St. Louis, the first stop on a three-game Midwest road trip in which the Redmen hoped to stamp themselves as the New York area's first national power in nearly a decade.

The Redmen of Joe Lapchick got up to within two points with about three minutes remaining.

## Patterson, Johansson Sign For Heavyweight Title Bout

NEW YORK (AP)—The "secret" finally is out. Heavyweight Champion Floyd Patterson is going to fight Sweden's Ingemar Johansson. Best guess on the site and date is New York or Los Angeles in June or September.

Some 10 day ago promoter Bill Rosenzohn said the match was "90 per cent made." A week ago it was all set but the signing. After prolonged negotiations by a staff of legal brains, the two warriors finally signed Thursday in the shadow of the smorgasbord at a Swedish restaurant.

But the mystery isn't over yet. The date and site will be named within 30 days. At the moment, Rosenzohn says New York and Los Angeles are the winter book favorites, with Colorado Springs a strong third. He can stage the bout anytime between now and Sept. 30.

Within the next week or two Rosenzohn will visit Philadelphia, Minneapolis, Indianapolis, Colorado Springs and Los Angeles. First he will meet with Mayor Wagner of New York Feb. 3.

There is one slight problem, as far as Rosenzohn is concerned. The contract permits Patterson to take another fight before Johansson. There is no such thing as a nontitle bout for a heavyweight champ.

Cus D'Amato, Patterson's manager, won't say yes and he won't say no. The best he will say is: "Floyd will have a sharper one way or another." That could mean an April match with someone like Brian London as promoter Harry Levine of London has been trying to arrange. Or it could mean one of Cus' secret fights in the gym.

## Over Rebels Golden Eagles Seek Revenge

United's Golden Eagles, ranked sixth in the state in the Class A Associated Press poll, will attempt to gain revenge for its only defeat of the season Saturday night when they entertain the formidable Fairfield-Waterford Rebels.

The Eagles had an eight-game win streak snapped at Fairfield-Waterford 67-61 in overtime three weeks ago. United is 12-1 on the season having won four since then including a close decision over Class AA Carrollton.

United has not played since last Friday when they romped over Augusta, Fairfield-Waterford beat Greenford last Tuesday.

The Rebels are in action tonight at Western Reserve.

A win over Fairfield-Waterford would enhance United's chances of climbing in the AP balloting. Coach Bob Penrod's team has been pointing to Bing Newton's crew ever since their Jan. 9th defeat.

## Cronin Officially 'In' As President of AL

NEW YORK (AP)—Joe Cronin officially will be installed as president of the American League when the major league club owners hold their annual midwinter baseball meetings here Saturday.

The Hall of Famer, who starred at shortstop for Washington and Boston for many years, recently resigned as general manager of the Red Sox after a special screening committee unanimously approved of him to succeed Will Harridge.

Harridge, 72, announced his resignation at meetings in Washington last December after having served for 28 years.

Bucky Harris, veteran baseball figure, succeeded Cronin as Boston general manager.

The meetings will open with the leagues in separate sessions and close with a joint confab, under the Supervision of Commissioner Ford Frick.

The chief topic of discussion will center around the Caribbean Winter League's request to liberalize restrictions on player talent. Under the current rule, a man who has played two consecutive years in the majors cannot play winter ball.

## Salem Frosh Beaten 45-40 By Niles Team

Sam Pridon's freshman basketball squad lost its fifth game of the season in 14 starts Thursday when they dropped a close 45-40 tilt to the Niles freshmen at Niles.

The teams each pocketed 16 field goals but the young Dragons won the game at the foul strip sinking 13 of 17 attempts. Salem made 8 of 13 from the charity line.

Bob Eskay was high man for Salem with 14. Gary Jeffries had 10 while Allen Ewing caged six. Sam Watson and John Panzotti had four each for the Quakers and Ken Tepsic had two.

Niles led all the way holding quarter leads of 13-5, 26-15 and 38-32.

Salem made 16 of 47 shots for 34 per cent while the winners rimmed 16 of 50 for 32 per cent.

The Quakers outscored Niles 25-19 in the second half by shooting 50 per cent but a poor first half in which they hit on but six of 27 attempts for a meager 22.2 per cent cost them their 10th win of the season.

The Pridonmen will be in action on the home court Monday at 4 p.m. against Alliance Stanton.

## Russia May Forfeit Cage Championship

SANTIAGO, Chile (AP)—The United States finds out tonight whether the World Amateur Basketball Championship will remain in the country where the game was originated more than 50 years ago.

If Russia goes through with its announced decision not to play Nationalist China because of political reasons, then the United States can retain the title by defeating a strong Brazil team tonight. The U.S. team has a 4-1 record, Brazil 3-1.

Should the Russians decide to take the floor against China, the United States has no chance. The Russians have a 5-2 record and the best goals for and against record which would decide the issue in event of a tie. They beat the U.S. team 62-37 Wednesday night.

Officials of the International Basketball Federation have announced that all of Russia's games will be forfeited if they do not play the Chinese.

Should the Air Force personnel representing the United States win the title by default, it will be an unpopular victory.

Chilean fans expressed dissatisfaction over the poor caliber of American play although the U.S. team rallied in the second half for a 64-51 victory over Chile.

Fans peppered the Americans with paper, coins and fruit, accompanied by calls of "Russia, Russia."

While declining to offer any alibi, American Coach Charles (Buzz) Bennett of Duluth, Minn., said any of the first 12 college teams in the United States could run the Russian team off the court.

With no college or AAU club teams available, the U.S. players were selected through an advertisement published in an Air Force paper. The ad asked for volunteers.

## 300 Bowler Receives Only Glory for Feat

SPOKANE (AP)—Two bowlers rolled 300-games here Thursday but one received \$2,100 in cash, the other, only glory.

Clem Kelly, bowling in the Elks' League, was awarded \$500 by the alley proprietor and \$1,600 from city merchants.

Jim Hanson, a 17-year-old high school student, also hit 300. But as an American Junior Bowling Congress competitor, Hanson couldn't accept any cash prizes without forfeiting his rights as an AJBC bowler.

## \$100,000-Plus Bonus Baby to Show Stuff in Orioles' Camp

NEW YORK (AP)—Dave Nicholson, the highly publicized St. Louis bonus boy who has yet to justify the \$100,000-plus bonanza he struck a year ago, will show his stuff in the Baltimore Orioles' new training camp at Miami next month.

The big 19-year-old outfielder got the attention from reporters and photographers, but a couple of other youngsters—outfielder Willie Tasby and pitcher Jerry Walker—will be the ones to watch for possible regular Oriole berths in 1959.

Tasby has speed and power. In seven minor league seasons, he hit 134 home runs and twice led his league in stolen bases. With Louisville last year, he batted .322 and led the American Assn. with his 291 total bases.

Walker, signed out of Ada, Okla., led the Sally League with 18 victories against only four defeats.

Nicholson received a taste of minor league life last year, moving from league to league, including Dublin, Ga., of the class D Georgia-Florida League where

he batted .227 in 27 games, clubbing 15 home runs and driving in 60 runs in 113 games.

Angelo Dagres and Leo Burke, two others who will vie for outfield berths, enjoyed fine seasons with Knoxville last year. Dagres batted .311. Burke collected 61 extra base hits, including 17 home runs.

Manager Paul Richards also will inspect five freshmen infielders Roy Barker, who hit .253 at Vancouver, and Wayne Causey, .243 at Louisville, are the only ones with triple A experience.

The pitching squad contains only three new pitchers besides Walker, George Bamberger was purchased from Vancouver where he led the Pacific Coast League with a 2.45 earned run average. He won 15, lost 11.

John Fisher had a 14-11 record with Wilson. Ron Moeller was 3-1 at Vancouver.

Catcher Charlie White, formerly with the Milwaukee Braves, rounds out the freshman crew. He caught 119 games at Vancouver and ended up with a .291 batting average.

Next—Milwaukee Braves.

## Sports Sketches

By GORDON ARNDT

Youngstown Chaney coach George Simstead and his Cowboys scouted Salem in action against South last Tuesday. It was the second time this year that I noticed Chaney watching the Quakers in action.

Apparently, Simstead figures Chaney and Salem will tangle before the end of the scholastic season. So do I.

I don't believe it will be in the sectional tournament but on the district level which also will be played at the Youngstown South High field house March 5-6-7. The sectional there will run Feb. 20-21-26-27-28.

Fourteen teams will compete in the sectional with two emerging for the district meet. This means there will be two brackets. Two teams will draw byes so the bracketing comes out even. In any tournament you need four, eight, 16 or 32 teams etc. to successfully complete it. When you have an odd number you combat it with byes, such will be the case in the sectionals.

In speculating a bit, I would say Salem and Chaney will receive byes but will be placed in different brackets so they won't meet in the sectional. As such each club will have to play two games while each of the other 12 must win three to battle their way through the sectional.

If there are seven teams in each bracket that leaves six that would play on opening night. You'd eventually get three winners and plus the team that got a bye, it would leave four clubs in each bracket. With two brackets, there will be three games on Feb. 20 and three Feb. 21.

This means Salem and Chaney would not play their first tourney clash till either Feb. 26 or Feb. 27 depending on how they're bracketed.

SALEM will have then either a nine or 10 day layoff between their last regular season game and their first tourney clash. The final regular year tilt is Feb. 17 with Girard. The next-to-last game on the regular schedule is Feb. 10 with Akron East.

Salem's first tourney game will be but their second basketball contest during a period of either 16 or 17 days.

The last big layoff the locals had was between Dec. 16 and Dec. 26. They beat East Palestine Dec. 16 but lost in a thriller to East Tech 10 days later. This was quite early in the season.

It might appear alarming on paper but I don't believe the Quakers will suffer at all from this layoff. They have been improving rapidly all season long and the layoff think will prevent them from getting rusty and stale but will make them gain renewed vigor and enthusiasm for the tournament clashes.

In continuing the speculation, the four teams in the district meet at Youngstown will include two sectional winners from Youngstown (Salem and Chaney) and two sectional winners from Struthers.

(Brookfield, Hubbard, or Liberty). Only one team from the Youngstown district will go to the regional at Kent. The dates there are March 11-12-14.

The four clubs in the Kent regional would be, I'm guessing now, Akron Central or Akron St. Marys, Canton McKinney or Canton Lehman and a team from the eastern district in which Zanesville is included plus Salem, providing they beat Chaney.

If Salem is to win the state title they must capture eight tourney games, two each on the sectional district, regional and Columbus level.

HOWEVER, Salem has five more regular season games remaining and we shouldn't jump the gun talking about tourney action.

Should you want to speculate about the post season classic maybe the above information will help you do so.

The Quakers hit their 1,000th point of the year last Tuesday when Rick Theiss connected on a free throw with 4:8 left in the game which made the score 78-38 at the time.

Woody Deitch alone scored 12 points in the second quarter against South. The Warriors as a club made but 13 in the entire second half.

Salem is averaging 77.4 points a game but was more remarkable and quite often overlooked is the team's fine defensive average. Opponents are averaging but 49.8 points a game against the Red and Black.

## Clean Sweeps Mark Volleyball Action

Winning teams in the city volleyball league made a clean sweep of their matches last night at the Memorial Building. Three teams won all three games in their respective matches while a fourth match ended in a forfeit.

The Post Office took three from Foreman's Window 15-2, 15-6 and 15-11. Ohio Edison dropped a trio of games to Kiwanis 14-5, 8-6 and 15-4 while the Buckeye AC downed Electric Furnace three in a row 15-11, 15-10 and 10-7.

Eljer won three games by forfeit when Bliss failed to appear.

## Deitch Back In Starting Role Tonight At EL

Woody Deitch will be in Salem's starting lineup tonight at East Liverpool for the first time in 10 days as the sixth-ranked Quakers go after their 10th straight and 13th win in 14 starts.

Coach John Cabas said today the 6-1 southpaw senior will retain his old position after having had his starting role filled by Jim Lehwald, a 6-1 junior, during the past two games.

Deitch sustained a swollen left hand in the Youngstown Rayen game here Jan. 20. He did not dress for the Wellsville game last Friday and although not starting against Youngstown South this past Tuesday he nevertheless saw considerable action.

Lehwald turned in fine performance against Wellsville and South and as such asserted himself as Salem's stellar sixth man.

The Potters have lost nine straight and own a dismal 1-12 record in their worst year in history.

The junior varsity prelim will begin at 7 p.m.

## Souchak, Duden Top 'San Diego' Golfers

SAN DIEGO, Calif. (AP)—The traffic was fierce today, with 35 precarious lead, as the 141 pros margin of five strokes as play swung into the second round of the \$20,000 San Diego Golf Tournament.

Heading the procession with a precarious lead, as the 141 pros again attacked the par 36-72 Mission Valley Country Club course, were Mike Souchak and Bob Duden.

Souchak, 31, a veteran of tournament play from Grossinger, N.Y., and Duden, 38, of Oswego, Ore., each went around in 32-65 Thursday.

Duden has never won a major PGA tournament, and his earnings last year amounted to \$1,070. But he played like a champion Wednesday. He finished well in front of such stars as U.S. Open Champion Tommy Bolt and Arnold Palmer, the 1958 Masters winner and victor Sunday in the Thunderbird Invitational at Palm Springs.

Bolt settled for a 36-72, and Palmer, who won this event in 1957, had 34-72.

One stroke behind the coleaders were Bo Wininger, who had 31-35 and might have done even better if his ailing shoulder hadn't begun to kick up, and young Doug Sanders of Miami Beach, Fla., with 35-31.

Californian Named To Post In IBOP

William Rail, a member of Local Union 89 at Richmond, Calif., has been appointed tenth vice president of the International Brotherhood of Operative Potters to succeed the late Rex B. Morgan of Hollywood, Calif., who died Jan. 11.

Announcing Rail's appointment today, the IBOP explained the post was filled by the executive board, which is comprised of the international officers, Mr. Morgan had served in the IBOP post since 1953.

Mr. Rail entered the pottery trade in 1946 as an apprentice sanitary caster at the San Pablo, Calif., plant of the American Radiator and Standard Sanitary Corp.

After serving as chairman of the shop committee, he was elected president of the local union, a post he has held for four years.

## County Had 76 New TB Cases In '58

LISBON — A total of 121 Columbiana County patients were receiving tuberculosis drugs or home care as of Jan. 1, according to the yearly report of Dr. F. G. Kravec, director of the County Tuberculosis Control Clinic.

Dr. Kravec's report shows that 76 new cases of TB were reported last year, and that 46 were active. Forty-seven patients were admitted to TB hospitals.

Dr. Kravec, a Youngstown chest specialist, is employed on a part time basis by the Columbiana County commissioners. The clinic is located on the third floor of the Courthouse and is financed by the six-tenths mill county-wide tuberculosis levy passed in 1957.

Thirty-nine patients were discharged from TB hospitals last year — 26 in accordance with medical advice and 11 against medical advice. Two patients died, the report shows.

Forty-three county patients were in TB hospitals as of Jan. 1.

Dr. Kravec reports 2,001 chest X-rays were taken last year. There were 2,490 medical consultations, and 2,872 home visits made by the county's two TB nurses and city nurses in East Liverpool and Salem.

The county commissioners have appointed a new board to administer the affairs of the TB clinic. Members are J. R. Sanders, vice president of Farmers National Bank, Salem; Maurice Rappoport, East Liverpool merchant; and Atty. Robert S. Hartford, East Palestine.

## Crippled Plane Lands Safely in Joplin, Mo.

JOPLIN, Mo. (AP)—A Braniff airliner with 44 persons aboard limped into Joplin Airport Thursday night on one engine and a hefty tailwind.

The port engine of the two-engine Convair quit shortly after the airliner had left Tulsa on a scheduled nonstop flight to Chicago. Pilot Ed Mayer of Dallas said he decided to ride a 65-75 mile-an-hour tailwind to Joplin instead of turning back. He called the landing routine. Mayer said he didn't know why the engine quit.

Mrs. Florence Broderick of Wellsville presided at the meeting.

The council will meet again in March, the time and place to be announced later.

## On the Bookshelves

Listing of New Books at Salem Public Library

"Friend to Friend" is a most unusual book. In it Carlos P. Romulo and Pearl Buck speak frankly about the American way of life and the impression that it has upon our relations with the people and governments of Asia. This is much deeper than the usual treatment of the "as others see us" theme.

In the "Golden Eagle" John Jennings has written a fictional version of the exploits of Hernando de Soto in the New World. The story builds up one exciting event upon another until the climatic discovery of the Mississippi provides DeSoto the fame that he had sought for so long.

### OTHER FICTION

"Post Treasury of Civil War Stories" edited by G. B. Carroll. This is a collection of the best stories about the Civil War that have been published in the Saturday Evening Post. Among the famous authors included are J. P. Marquand, Mackinlay Kantor and Clifford Dowdy.

"The Hook" by Vahe Katcha. A ghastly story about three officers who shoot down an enemy plane, capturing one survivor. They are ordered to kill their prisoner but are unable to shoot him in cold blood.

"Sea Is Red" by Scott O'Dell. Another sea story during Civil War days. Kirk Britt joins the crew of a Confederate raiding ship after a Union gunboat destroys his own ship and kills his wife.

"Lady L" by Romain Gary. Flashbacks in her eighteenth year recreate the life of aristocratic

Lady L. from her youth in the slums through her lawless life and her great passion for Ormond Denis. The book has a very surprising ending.

"Buffalo Gold" by R. G. Choate. Matt Durand comes to the aid of lawman Reb Jackson, in the bloody showdown with killer Frank Golden, in this fast paced western adventure.

"A Mile Beyond the Moon," by C. M. Kornbluth. A collection of fifteen stories by one of the leading science fiction authors. The tales vary from "space epics" to futuristic humor and suspense.

"Black Fawn" by J. Kjelgaard. A tender story of an orphan from the city who learns from his grandparents of the wonders of the country and the ways of love.

### NON-FICTION

"Rockwell's Complete Book of Roses" edited by F. F. Rockwell and E. C. Grayson. Delightful reading for the "seed catalog" set and expert advice for the person who plans to grow roses in the yard. The author suggests new ways to improve any rose garden, large or small.

"Ceramics — And How to Decorate Them" by J. B. Priolo. Basic first steps in forming and making artistic ceramics, as well as step by step method for finishing each piece in an attractive way. The illustrations will be a big help to the hobbyist.

"Modern Verse in English, 1900-1950" edited by David Cecil and Allen Tate. A fine collection of over 500 poems from the major English and American poets during the first half of this century. Many of the poems appear in book

form for the first time.

"Hive of Bees" by J. B. C. Lamburn. All about bees — their work, their leisure, the Queen Bee, swarms, honey-making, and how to win them as friends. If the bees should happen to reject how to care for stings.

"Fossil Book" by C. L. and M. A. Fenton. A record of animal and plant life down through the ages as shown by the fossils left in rocks etc. Much material on where fossil can be found, how to tell their age, etc.

"Introduction to Haiku" edited by H. G. Henderson. An anthology of best Japanese seventeen-syllable poems known as haiku, translated and annotated for western readers. The entire period from Basho to Shiki is covered.

"Of Lasting Interest" by J. P. Wood. A history of "Readers' Digest" from the time of its founding by DeWitt Wallace to the present, when it is called the most successful magazine in the world.

"Castles in the Air" by Irene
